# L7 3-way loudspeaker

## May we present our top of the line Speaker in the L-Series, The L7!

Based on the design experience of the L3 and L5 we have developed breakthrough technology for interior acoustic design and network layout.

These new innovations now bring the L7 even closer to achieving the ultimate goal: bringing the musicians into your living room!

Listen and be amazed with the transparency, detailing, accuracy, timing, the true to life sound staging ..... Listen again and forget about everything but the music.

### Listen and be convinced!

#### Technical specifications L7:

High frequency driver	38mm (1.5") ring radiator, SD-2 neodyme motor; non-resonant aluminium chamber; multiple chamber low compression design, machined aluminium faceplate and stainless steel phase plug
Mid frequency driver	180mm (7") midrange, powerful vented SD-1 motor; sliced paper cone, low loss linear suspension. Low compression aerodynamic aluminium chassis, spike mounted in cabinet
Low frequency driver	Two 180mm (7") bass, powerful vented SD-1 motor; sliced paper cone, low loss linear suspension. Low compression aerodynamic aluminium chassis, spike mounted in cabinet
Crossover network	Interlinked multi order Non-Resonant Linked Impulse (NRLI) technology by GamuT, electromagnetic and circuit optimized Electrically separated board layout
Cabinet	High density fibreboard featuring internal skeleton braces. Bitumen damped.
Appearance:	Bird's eye maple or Roeswood veneer with eleven layers of hand polished high-gloss lacquer
Frequency response	27 - 60.000Hz
Sensitivity	90dB @ 2,83V
Nominal impedance	4 ohms
Minimum impedance	2.6 ohms @ 220Hz
Recommended power amplifier	50-300W
Input connections	High-quality, gold plated WBT binding posts with 4mm plugs. Bi-wire and Bi-amp capability
Cabinet dimensions (HxWxD)	1280 x 200 x 430 mm (50.4 x 7.9 x 16.9")
Weight	44kg (99,7lbs)
Stands	stainless steel spikes
