

feel the music
Lyra™

“sound of music”

I know you're looking at me for you have good taste in music. Lyra™ HD-661DX Loudspeaker System is masterfully designed like crafting a piece of fine instrument. With sophisticated engineering, exceptional speaker components, and cabinet design, Lyra™ reproduces irresistibly live-like sound quality and eliminates echo return and vibrations. Whether playing loud or lowering the volume, it handles the dynamic sound area gracefully and has an open and wide soundstage. Its warmer tone and glorious bass make you feel the music not just hear it. Now you can rock, jazz, and get musical in High Definition.

Admirations for Lyra™ Loudspeaker Series have grown greatly over the years. We appreciate the supports of our customers and their valuable comments about Lyra™. We decided to make Lyra™ HD-661DX's achievements into a list of qualified features that may accommodate you to select the best speakers. Ask your local dealers for a sampling audition, and you'll go "Wow" like all our other customers. See back for details.

Lyra™ HD-661DX Loudspeaker System WWW.JATONHP.COM

AIV THEATER SYSTEM

Features

- **Proprietary Speaker & Cabinet Design:** The cabinet is constructed with high-density macromolecule boards, which helps eliminates echo return and vibration. Its elegant design is both stylish and functional. The spatial cabinet space integrated with Lyra™ HD-661DX's new 3-way crossover design and bi-wire provides the ability to move air and increases power handling capabilities, resulting in more bass and wider and deeper soundstage than former Lyra™ models.
- **Favorite Sounding Speakers:** Lyra™ HD-661DX has warmer tone and at the same time is very vibrant. The anti-magnetic tweeter with 25 core silk dome handles extended high frequency response effortlessly and reproduces detail and clear sound quality. The aluminum alloy woofers with dual magnet cores provides fast frequency response and rich and accurate bass reproduction that's not boomy. Let Lyra™ HD-661DX immerse you in its dynamic sound quality.
- **Standout Product Testing Report:** Lyra™ HD-661DX is tested to be water, heat, shock, UV radiation, and vibration proof. It performs perfectly at extreme temperatures -40°F to 167°F, in heavily humid environment, after passing 200 vibration tests and blasted tone testing.
- **Exceptional Parts Quality at Great Value:** Jaton's ANV Home Theater™ products are always designed with superb performance and exceptional value in mind. Lyra™ HD-661DX's integrated engineering and design achieves astounding sound and build quality at reasonable price.

"It's like the musicians are in your living room..."
Michael Ricci, Staff Engineer, Vibe Media Group

HD-661DX Stand
 Jaton Speaker Stands position Lyra™ HD-661 well for seated listening.

TW-140 Super High Frequency Tweeter Speakers
 Equipped with Lyra™ HD-661DX or any speakers, which original high frequency can only extends up to 25k Hz - 32 kHz, for super high frequency response and adds transparency to high frequency sound.

Technical Specifications

LYRA™ HD-661DX LOUDSPEAKER SYSTEM

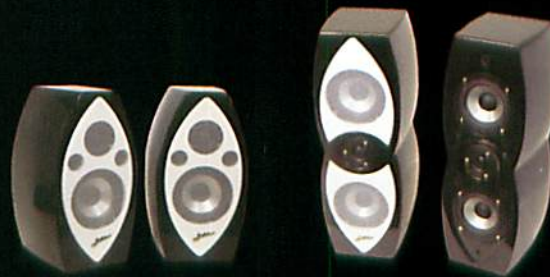

Crossover Design	Passive Type, 3 Way 3 Drivers
S.P. Level / Sensitivity	88 dB @ 1 Watt / 1M
Frequency Response	45 Hz ~ 25 kHz
Nominal Impedance	4 Ohm
Output Power	40 Watts / 200 Watts Maximum
Driver Unit Size	1" Silk Tweeter x 1 Unit 6.5" Metal Alloy Woofer x 2 Units
Finish	11 Layers of Black Lacquer
Dimension	W 24" x H 27" x D 13"
Weight	46 lb.
Input Connection	Bi-wire 5-way Binding Posts

LYRA™ HD-661DX STAND

Dimension	H 25 5/8"
Weight	44 lb.

TW-140 SUPER HIGH FREQUENCY TWEETER SPEAKERS

Tweeter Unit	Silk Ribbon
S.P. Level / Sensitivity	95 dB @ 1 Watt / 1M
Frequency Response	2 kHz ~ 40 kHz
Nominal Impedance	6 Ohm
Frequency Cut-Off	15 kHz
Cabinet & Finish	Walnut Hardwood w/ Varnish
Dimension	W 4 3/4" x H 4 3/4" x D 4 3/4"
Weight	2.2 lb.
