

LINN

KEY FEATURES

- I Soft dome high-frequency driver (with neodymium magnet) that provides an exceptionally clean and open sound
- I Custom polypropylene midrange and bass driver units with a strong die-cast chassis and dual field-shaping magnets that produce a detailed midrange and deep, tight bass response
- I High-density cabinet construction and high specification crossover ensure accurate reproduction across the full frequency range
- I Fully shielded drive units enabling the ESPEK to be placed close to a television, monitor or computer without causing picture interference
- I Versatile aktiv/passive link plates provide several crossover configurations that can be changed effortlessly

The Linn ESPEK is a stunning, powerful, floor-standing loudspeaker designed to give thrilling, no compromise, pitch accurate performance in two-channel and multi-channel applications. The design of the ESPEK optimises the relationship between cabinet geometry and construction, drive unit configuration, crossover frequency relationships and aerodynamic design of port exits to maximise performance.

The ESPEK's profiled cabinet construction and fully shielded drive units provide a variety of positioning options. Combined with the EKWAL loudspeaker, which uses the same Linn designed drive unit configuration, the ESPEK loudspeaker provides perfect tonal match and dispersion patterns, thus enabling seamless integration in multi-channel home entertainment systems.

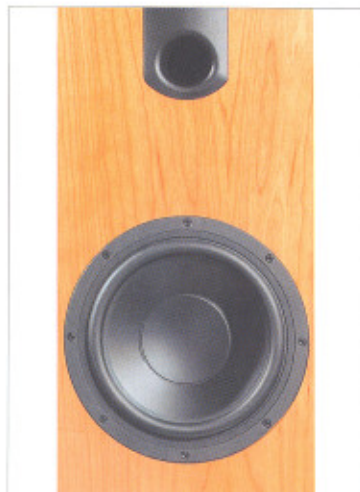

The ESPEK can easily be configured as a passive or aktiv loudspeaker. Two removable, reversible link connection boards (patent pending) on the rear of the cabinet enable the ESPEK to be simply and quickly configured for either single-wired passive, bi-wired passive, tri-wired passive, or aktiv operation.

The ESPEK loudspeaker comes complete with its own base stand and is available in attractive Maple, Black Ash and American Cherry finishes from qualified Linn outlets worldwide.

ESPEK

SPECIFICATION

A stunning, powerful, floor-standing loudspeaker for passive and aktiv playback

ESPEK

TECHNICAL SPECIFICATION

A stunning, powerful, floor-standing loudspeaker
for passive and aktiv playback

I	Introduced	2001
I	Volume	42 litres
I	Frequency response	30 Hz - 20 kHz +/- 3 dB
I	Input impedance	4 Ω
I	Amplifier power	Minimum 60 W into 4 Ω
I	Efficiency	90 dB for 1 W at 1 m (1 kHz)
I	Magnetic screening	Fully screened within 3 Gauss from the cabinet edge
I	Crossover options	Treble level can be reduced by 1 dB on the crossover board
I	Wiring options	Single-wire passive, bi-wire passive, bi/tri amplified passive and aktiv
I	Size	H 980 mm x W 170 mm x D 320 mm H 38.6 inches x W 6.7 inches x D 12.6 inches
I	Weight	21.5 kg / 47.4 lbs
I	Finishes	Maple, Black Ash, American Cherry
